

README — Streamlit Interactive Dashboard

Dashboard link: <https://unstriking-gratifyingly-magan.ngrok-free.dev/>

****reddit_anxiety_cleaned_for_eda.csv dataset for uploading after clicking on the dashboard link.

Steps Performed:-

1.Installed Streamlit using pip install streamlit.

2.Created app.py containing code to:

Upload a CSV file

Display dataset preview and summary statistics

Provide interactive chart selection options (bar, line, scatter)

Visualize selected features using Plotly

Optionally filter data using a slider widget

3.Ran the app locally using the command streamlit run [app.py](#)

streamlit_dashboard.ipynb --google collab file
